Academic Year 2022-23

Certification Program on “Rubicon- Behavioral Training”

Name of the Resource Person and Association: Mrs. Swasti Khandale, Rubicon

Dates: 29th October 2022 to 3rd November 2022

Duration: 30 hours

Mode of Certification: Offline

No. of Students Enrolled: 57

Mode of Evaluation: Continuous Evaluation during program

Objectives of Programme

- To increase the knowledge of behavioral principles and theories. This includes understanding how behavior is learned, how it can be changed and the factors that influence behavior.
- To learn how to intervene in behavior. This includes learning how to develop and implement behavior plans, how to provide positive reinforcement, and how to manage problem behavior.
- To improve communication and interpersonal skills.
- To demonstrate competency in behavioral skills.

Description of Programme

This certification program on behavioral skills can provide a number of benefits to students. By increasing knowledge, skills, and competencies, a certification program can help individuals to improve their job performance, increase productivity, and create a more

positive work environment. Mrs. Swasti Khandale, Trainer, Rubicon was the facilitator of this certification.

Outcome of Programme

Employees who have strong behavioral skills are more likely to be effective in their jobs. And hence this certification has enhanced job performance of the students. It has also helped in increasing their productivity. Students were able to manage their own behavior. A positive work environment is one where employees feel valued and respected. Behavioral skills have helped to create a more positive work environment by reducing conflict and increasing cooperation.

Mrs. Swasti Khandale, Trainer from Rubicon, addressing our students during certification

Chief Operating Officer

Academic Year 2022-23

Certification Program on “Data Analytics using Power BI and Tableau”

Name of the Resource Person and Association: Speaker from Excel R (MOU)

Dates: 2nd January 2023 to 20th January 2023

Duration: 30 hours

Mode of Certification: Online

No. of Students Enrolled: 58

Mode of Evaluation: Test

Objectives of Programme

- To create basic reports and dashboards using Power BI and navigate the Power BI interface proficiently.
- To explore data patterns and trends using exploratory data analysis techniques.
- To develop a design and create interactive dashboards in Tableau, incorporating actions, filters, and parameters for a user-friendly experience.
- To conduct statistical analysis using Power BI and Tableau.

Description of Programme

This certification program on ‘Data Analytics using Power BI and Tableau’ was offered by Excel R with whom the institute has a MOU. Data Analytics using Power BI and Tableau refers to the process of using these two popular business intelligence and data visualization tools to analyze and derive insights from data. Both Power BI and Tableau are powerful platforms that allow users to connect to various data sources, transform raw data into

meaningful information and create interactive visualizations for better decision-making. Hence this program will provide a formal validation of student's skills in using Power BI and Tableau. This validation will be recognized by employers and peers, confirming their proficiency in these widely used analytics tools.

Outcome of Programme

Completing a certification program on Data Analytics using Power BI and Tableau can yield various positive outcomes for students. Here are some key outcomes:

Skill Proficiency:

Completing this certification displayed a high level of proficiency in using Power BI and Tableau for data analytics.

Enhanced Employability:

This certification enhanced our student's employability by showcasing a validated skill sets making them more competitive in the job market.

Recognition within the Industry:

This program is a recognized credential within the industry, signaling employers that an student has met a certain standard of expertise in Power BI and Tableau. It can enhance professional credibility.

CEO, ExcelR Solutions

Academic Year 2022-23

Certification Program on “Corporate Strategy and Governance”

Name of the Resource Person and Association: Dr. Tanaya Patil, Freelancer.

Dates: 12th January 2023 to 30th January 2023

Duration: 31 hours

Mode of Certification: Offline

No. of Students Enrolled: 42

Mode of Evaluation: Test

Objectives of Programme

- To be able to understand the key mechanisms of corporate governance, the policies influencing them and the empirical methods used in this subject.
- To impart knowledge on governance which ensure ethics in corporate management
- To provide an understanding on legal enforcement for management of corporate health in the interest of shareholder & public.

Description of Programme

Corporate Governance refers to the mechanisms that solve two principal-agent (PA) problems, which are present in large corporations where ownership of residual cash flow and control are in different hands. One such PA problem arises between the owners of capital and managers, and another between the small, dispersed owners and large, concentrated shareholders of the firm. The objective of the course is to present the main questions and answers related to corporate governance, the theories describing them and the empirical work. Dr. Tanaya explained the Corporate Governance Strategies policies applicable to

organizations in India by discussing various case studies of corporate governance failures in India. She also discussed the successful strategies adopted by Indian giant companies and evaluated their success rates. The certification was completed by 42 students.

Outcome of Programme

Upon successful completion, students gained knowledge and skills to:

- Articulate a concrete understanding of the purpose, strategies and nature of corporations.
- Evaluate different stakeholder's roles and significance in relation to corporate governance and strategy
- Explain the importance of regulation, markets and information in corporate governance and formulation and implementation of strategies.
- Significantly consider the role of governance for individual corporations and their stakeholders and its impact on strategic decision making.

Dr. Tanaya Patil, Freelancer, addressing students during the program.

Syllabus for
Certification Program on
“Corporate Strategy and Governance”

Days	Topics
Day 1	Introduction, Need and Scope Evolution of Corporate Governance
2	Developments in India.
3	Corporate Governance Code and Agency Theory.
4	Elements of Good Corporate Governance,
5	Recent Corporate Governance Committee reports like N. R. Narayan Murthy Committee, J. J. Irani Committee etc.
6	
7	Issues and Challenges, Types of Directors; Board’s Role and Responsibilities
8	Chairman, CEO, Separation of Roles
9	Relationship between Directors and Executives, Visionary Leadership, Board Charter,
10	Meetings and Processes, Directors’ Training and Development.
11	Performance Evaluation of Board and Directors Board Committees
12	Board Committees, their Composition, Role and Responsibilities,
13	Contribution to Board Governance
14	Shareholders: Rights of Shareholders
15	
16	Challenges in Exercising Shareholders Rights
17	Ownership structure & firm Performance
18	Legal Protection of small shareholders, Corporate Governance issues with
19	regard to Related Party Transactions,
20	Role of Investor Associations in Securing Shareholders Rights
21	Role of Institutional Investors in Corporate. Governance. Corporate Governance
22	Other Stakeholders: Employees, Customers, Lenders, Vendors, Government, Society
23	Under Listing Agreement, SEBI Guidelines, Companies Act, Corporate Governance in PSUs, Banks
24	Insurance Companies, Service Sector, IT Sector
25	Risk Management and Internal Control
26	Global Perspective of Corporate Governance
27	Corporate governance failure at Various companies in India
28	Corporate governance failure at Various companies in India
29	Corporate Governance in India
30	Corporate Governance in India

Certification Program on

Academic Year 2022-23

Certification Program on “Cloud Fundamentals”

Name of the Resource Person and Association: Speaker from Excel R (MOU)

Dates: 13th March 2023 to 1st April 2023

Duration: 30 hours

Mode of Certification: Online

No. of Students Enrolled: 9

Mode of Evaluation: Test

Objectives of Programme

- To gain a comprehensive understanding of cloud computing concepts, including key definitions, characteristics and deployment models to establish a solid foundation
- To examine various cloud deployment models and learn how to choose the most suitable deployment model based on organizational requirements.
- To understand the concept of Azure Compute Service and to learn how to create , configure and manage VMs in Azure.
- To introduce the concept of Google Cloud Platform.

Description of Programme

This certification of ‘Cloud Fundamentals’ was the outcome of MOU with Excel R which is a global leader delivering a wide gamut of Technical training over 40 countries. It is into Application oriented training for Students on the trending technologies. Cloud computing has

become a standard for delivering and consuming IT resources. Understanding its fundamentals is crucial as many organizations are migrating or have already migrated their IT infrastructure to the cloud. Understanding Cloud Fundamentals allows businesses to be agile, quickly adapting to market changes and deploying new features or services. And therefore, the institute offered this certification.

Outcome of Programme

Upon successful completion, students gained knowledge and skills to:

- Stay informed about emerging trends and technologies in cloud computing, enabling them to adapt to evolving industry practices.
- Understand various cloud migration strategies and plan and execute a successful migration project.
- Apply essential cloud security principles, including identity and access management, encryption, and compliance, to secure cloud environments.

Glimpses of Online certification.

VPC design best practices

- Create **one subnet** per available Availability Zone for **each group of hosts** that have unique routing requirements.
- **Divide your VPC network range evenly** across all available Availability Zones in a Region.
- Do not allocate all network addresses at once. Instead, ensure that you **reserve some address space** for future use.
- Size your VPC CIDR and subnets to **support significant growth** for the expected workloads.
- Ensure that your VPC network range (CIDR block) **does not overlap** with your organization's other private network ranges.

Vpc network range even across all

Director (Incharge)

Course Content for
“Cloud Fundamentals”

Course Duration: 30 Hrs.

Course Content :

Module-1: Introduction to Cloud Computing

What is cloud computing?

Duration: 4 Hrs.

- ❖ Intro-Cloud Computing
- ❖ Pre and Post Cloud Computing era
- ❖ Benefits of Cloud Computing
- ❖ Shared Responsibility model
- ❖ Cloud Deployment model
- ❖ Cloud Service model
- ❖ Cloud Computing landscape and various cloud Service provider in market

Module 2 – Introduction to AWS

Duration : 14 hrs.

1. Global Infrastructure of AWS

- ❖ AWS Region
- ❖ AWS Availability Zone & Edge Location
- ❖ AWS Account Creation
- ❖ Management Console Walkthrough

2. IAM Basics of Authentication & Authorizations

- ❖ Introduction to Identity & Access Management
- ❖ Components of IAM
- ❖ Creating and Managing Users & Groups
- ❖ Creating and Managing IAM Policies
- ❖ Roles and its use cases

3. S3 Basics of Storage System

- ❖ Storage Services provided by AWS
- ❖ Difference Between Object storage and Block Storage
- ❖ Introduction to Simple Storage Service - S3
- ❖ Use Case & Benefits of using S3
- ❖ Components of S3
- ❖ Important Properties of S3 bucket

4. EC2 Basics of Virtual Servers

- ❖ Components of a EC2
- ❖ Introduction to Elastic Cloud Compute - EC2
- ❖ Use cases and important features of EC2
- ❖ Introduction to AMI - Its Uses
- ❖ EC2 Instance and its types
- ❖ Security Groups - Creation & Management
- ❖ Launching & Connecting to Window Instance
- ❖ Launching & connecting to Linux Instance
- ❖ Setting up a web server on Linux Instance - Hosting a website

5. Introduction to Load Balancer & Auto Scaling

- ❖ Types of Load Balancer in AWS
- ❖ Use Cases of Load balancers
- ❖ Important Components of Load Balancer
- ❖ Configuration of a load balancer and its management
- ❖ Use Cases of Auto scaling
- ❖ Important Components of Auto Scaling
- ❖ Configuration of Auto scaling
- ❖ Launch Configuration and LB Group

6. VPC Basics of Networking

- ❖ IP Address and CIDR Block
- ❖ Concept of Virtual Cloud - Private
- ❖ Introduction to Virtual Private Cloud -VPC
- ❖ Subnet and Route Tables
- ❖ Internet Gateway and NAT

7. Introduction to Cloud Watch & Cloud trail

- ❖ Important Components of Cloud Watch & Cloud trail

8. RDS Introduction to Database – Its Components

- ❖ Database Services provided by AWS
- ❖ Introduction to RDS
- ❖ Components of RDS

9. Dynamo DB

- ❖ Components of Dynamo DB

Module 3 – Introduction to Azure

Duration : 6 hrs.

1. Global Infrastructure of Azure

- ❖ Azure Region and Region pair
- ❖ Azure Availability Zone
- ❖ Azure Availability Zone
- ❖ Azure Portal Walkthrough

2. Introduction to Microsoft Active Directory

- ❖ AD Components
- ❖ AD License
- ❖ AD Feature

3. Azure Compute Service

- ❖ Azure Virtual Machines
- ❖ Types of Virtual Machines
- ❖ Azure VM Costing Models
- ❖ Virtual Machine Scale Set (VMSS)
- ❖ Launching & Connecting to Window Machine
- ❖ Launching & connecting to Linux Machine

4. Azure Storage

- ❖ Azure Storage types
 - a. Blob
 - b. Queue
 - c. Tables
 - d. Files
- ❖ Azure Storage Tier
- ❖ Azure Managed Disk
- ❖ Azure Storage Account creation demo

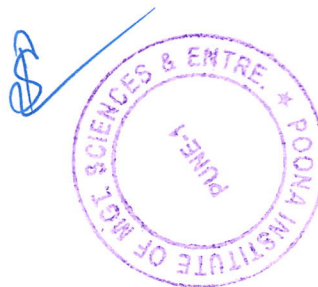

5. Azure Virtual Network

- ❖ Azure network Component
- ❖ Azure Vnet Configuration
- ❖ Azure Network Security Group

Module 4 – Introduction to Google Cloud Platform

- GCP Resource Hierarchy
- GCP IAM
- GCP Compute
- GCP Storage
- GCP Networking
- GCP CDN
- GCP Big

Duration: 6 hrs.

Academic Year 2022-23

Certification Program on “Fundamentals of Full Stack Development”

Name of the Resource Person and Association: Speaker from Excel R (MOU)

Dates: 3rd April 2023 to 25 April 2023

Duration: 30 hours

Mode of Certification: Online

No. of Students Enrolled: 4

Mode of Evaluation: Test

Objectives of Programme

- To understand the basic concepts of full stack development, why it is important and the different roles that full stack developers play.
- To learn about the different technologies that are used in full stack development like front-end technologies, such as HTML, CSS, and JavaScript.
- To be able to work with a team of developers to create full stack applications.
- To be able to troubleshoot and debug full stack applications.

Description of Programme

Full-stack development refers to the practice of designing and building the entire stack of a software application which includes both the front end (client-side) and back end (server-side) components allowing them to handle all aspects of web development. This certification will make our student versatile and capable of handling various aspects of the software development process. This certification was offered by Excel R to our students during the evening hours from 7 pm to 9 pm through online mode.

Outcome of Programme

Learning full-stack development can result in numerous positive outcomes, both in terms of personal and professional growth. Here are some key outcomes:

Versatility in Technology:

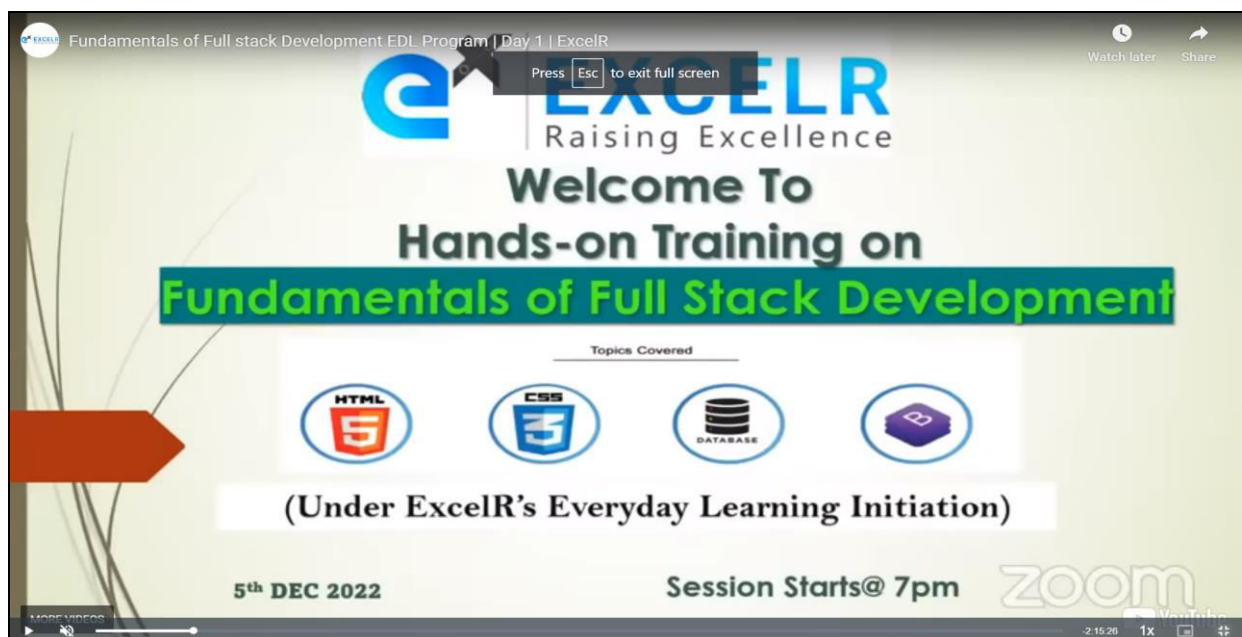

Full-stack developers gain proficiency in a wide range of technologies, allowing them to work with diverse tools and frameworks for both front-end and back-end development.

End-to-End Project Capability:

Full-stack developers can independently handle all aspects of a project from designing user interfaces and implementing front-end logic to managing databases and server-side logic. This capability is valuable for solo projects or small teams.

Broader Career Opportunities:

Full-stack development skills are in high demand in the job market. Learning full-stack development can open up a variety of career opportunities, as it allows students to apply for roles that require a comprehensive understanding of the entire development stack.

Glimpses of Online certification.

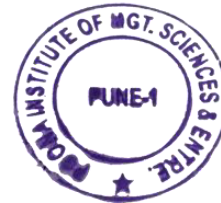

The screenshot shows the Visual Studio Code editor interface. The Explorer sidebar on the left displays a project structure with folders 'DAY2' and 'images', and files 'first.jiff', 'second.jfff', 'Comment.html', 'Heading.html', 'Image.html', and 'Paragraph.html'. The main editor window is open to 'Image.html' and displays the following HTML code:

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta http-equiv="X-UA-Compatible" content="IE=edge">
6   <meta name="viewport" content="width=device-width, initial-scale=1.0">
7   <title>Image</title>
8 </head>
9 <body>
10  
13 </html>
```

The status bar at the bottom indicates the current file is 'html > img' at 'Ln 11, Col 16' with 'Spaces: 4', 'UTF-8', 'CRLF', and 'HTML' encoding. A 'zoom' watermark is visible in the bottom right corner of the editor area.

Certification Program on “Investment Planning for Future Managers”

Name of the Resource Person and Association: Mr. Raghunandan Helwade, Proprietor, Arush Enterprises

Dates: 8th May 2023 to 12th June 2023

Duration: 31 hours

Mode of Certification: Offline

No. of Students Enrolled: 52

Mode of Evaluation: Test

Objectives of Programme

- To develop a comprehensive understanding of investment planning including stocks, bonds, commodities and other instruments.
- To help students learn to assess and manage investment risks, market risk, credit risk, and operational risk.
- To learn how to create comprehensive financial plans for families, incorporating investment goals, risk tolerance, and long-term financial objectives.
- To gain knowledge about tax implications of different investment choices and learn strategies for tax-efficient investing.
-

Description of Programme

Investment planning refers to the process of identifying financial goals and objectives and then developing a strategy to achieve those goals through the systematic allocation of

financial resources. It involves the careful selection and management of various investment instruments with the aim of optimizing returns while considering the associated risks. Students will start earning their income and they must know different avenues for investment and how to save tax and meet financial goals. Therefore there was a need to plan such certification which will help students that belong to Marketing, Human resource, Operations and Supply Chain Management, Business Analytics and Information Technology Specialisation, in becoming literate towards financial and investment planning.

Outcome of Programme

The outcome of a certification course on investment planning was expected to equip students with a range of knowledge, skills and abilities to navigate the complexities of investment management and financial planning. Participants gained a deep understanding of various investment options including stocks, bonds, mutual funds, real estate, and alternative investments avenues. The program enabled them to assess and manage investment risks effectively, considering factors such as market volatility, economic conditions and individual risk tolerance. Participants also understood the tax implications of various investment choices and learnt strategies for tax-efficient investing to maximize after-tax returns.

Academic Year 2022-23

Certification Program on “Elements of Management Control Systems”

Name of the Resource Person and Association: Adv. Neeraj Bagwe.

Dates: 8th May 2023 to 12th June 2023

Duration: 31 hours

Mode of Certification: Offline

No. of Students Enrolled: 44

Mode of Evaluation: Test

Objectives of Programme

- To make the students aware about the behavioral dimension of the use of management control systems.
- To learn how management control systems can actually drive behaviors and decision making in complex organizations.
- To enable students to design and implement effectively management control systems in different organizational settings.

Description of Programme

Every organization is meant for achieving pre-set goals and objectives. Well thought-out strategies are being implemented for this purpose. Execution of these strategies assumes as much importance as formulation itself. Management control systems are designed in order to implement these strategies successfully. The process of implementation of the strategies and the dilemma faced by managers are the main focus of this program. Adv. Neeraj Bagwe

explained the way how to plan, make budgets, its resource allocation, performance measurement, evaluation, and reward for effective control systems of a responsibility centre.

Outcome of Programme

With this program, students gained with the skills for effective implementation of strategies and resolving the problems at responsibility centres. Through this implementation, the students acquired the expertise to excel in the area of management control systems. It has further helped our students develop analytical and evaluation abilities to evaluate the management controls and budgetary systems.

Adv. Neeraj Bagwe addressing students on 'Elements of Management Control Systems' Certification

Dr. Porinita Banerjee
Director (Incharge)

Y. & M. Anjuman Khairul Islam's
POONA INSTITUTE OF MANAGEMENT

Approved by AICTE, New Delhi ISO 9001-2015 Certification)

NOTICE

Date: 4th May 2023

This is to inform all the Second year students of MBA General, MBA IT and MBA HRD that PIMSE is organizing 31 hours Add on Certification Program on topic “Elements of Management Control Systems” every from Monday and Thursday from 10.00 am to 12 noon.

Those who are interested need to register with Dr. Anjum Sayyad on or before 6th May 2023.

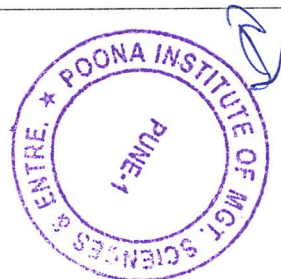

Dr. Porinita Banerjee
Director (Incharge)

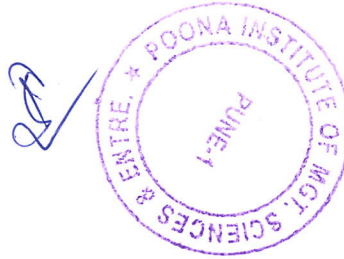

Syllabus for
Certification Program on
“Elements of Management Control Systems”

Syllabus

Sr. No.	Topics
1	Management Control Systems: (2 Hrs) Concept, Need, Linkages with Strategic Planning, Management Control and Operational Control.
2	Performance Evaluation Parameters: (3 Hrs) Financial – Responsibility Accounting –Concept of Responsibility Centers, Revenue Centre, Expense Centre - Engineered and Discretionary costs – Committed costs, Profit Centre, Investment Centers. ROI, ROA, MVA, EVA – DuPont analysis.
3	Non-Financial Performance measures : (4 Hrs) Balanced Scorecard, Malcolm Baldrige Framework. Measuring SBU Level Performance: Concept, Need, and Linkages with Enterprise Performance Management – Goal Congruence.
4	Transfer Pricing : (2 Hrs) Objective, Concept, and Methods –Cost based, Market price based & Negotiated, Applicability of Transfer Pricing.
5	Capital Expenditure Control: (6 Hrs) Concept, Need, Process of Capital Budgeting, Types of capital expenditure decisions – pre-sanction, operational and post-sanction control of capital expenditure. Tools & Techniques of Capital Expenditure Control: Performance Index, Technical Performance Measurement, Post completion audit
6	Performance Evaluation Parameters for Projects:(5 Hrs) Project Control Process: Setting base line plan, Measuring progress and performance, comparing plan against action, Taking action, Schedule variance (time overruns), Project Cost Variance (cost overruns)

7	Performance Evaluation Parameters for Banks: (4 Hrs) Customer Base, NPAs, Deposits, ROI, Financial Inclusion, spread, Credit Appraisal, Investments.
8	Performance Evaluation Parameters for Retail: (4 Hrs) ABC analysis, Sell Through Analysis, Multiple Attribute Method, Gross Margin Return on Investment (GMROI), GMROI as Gross margin/Average Inventory at Cost

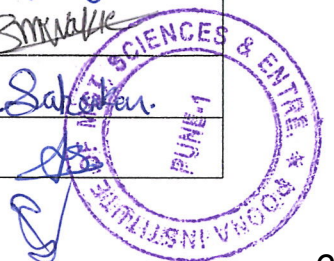

Certification on

“Elements of Management Control Systems”

Registration list

Sr. No.	Name of the Student	Course	Signatures
1	Manekar Varsha Ajay	MBA II	<i>Manekar</i>
2	Surbhi Jyeshtha Ubale	MBA IT 2 nd	<i>Surbhi</i>
3	Nawal Shakti Chogle	MBA II	<i>Nawal</i>
4	Hussain Badshah Shaikh	MBA 2 nd	<i>Hussain</i>
5	RAYYAN TALGAONKAR	MBA II nd	<i>Rayyan</i>
6	Mohammad alAbrar A. Shaikh	M.B.A II	<i>Mohammad</i>

CERTIFICATE OF ACHIEVEMENT

*This is to certify that Mr. / Ms. IQRA INAMDAR, MBA-IT
of Y.&M. AKI's Poona Institute of Management Sciences and Entrepreneurship
(PIMSE) has successfully completed a certification program offered on
"Elements of Management Control Systems". The course was conducted
from 8th May 2023 to 12th June 2023 at premises of PIMSE.*

Dr. Porinita Banerjee
Director (Incharge), PIMSE

Mr. Neeraj Bagwe
Speaker

Academic Year 2022-23

Certification Program on “Chat GPT and Artificial Intelligence”

Name of the Resource Person and Association: Speaker from Excel R (MOU)

Dates: 8th May 2023 to 26th May 2023

Duration: 30 hours

Mode of Certification: Online

No. of Students Enrolled: 14

Mode of Evaluation: Test

Objectives of Programme

- To provide a complete understanding of Chat GPT, its architecture and how it leverages artificial intelligence (AI) to generate human-like text responses.
- To explore principles and best practices for developing effective chat bots using Chat GPT and AI, considering user experience and interaction design.
- To enhance career prospects by demonstrating specialized knowledge and skills in an area that is increasingly crucial for businesses seeking innovative solutions and customer engagement.

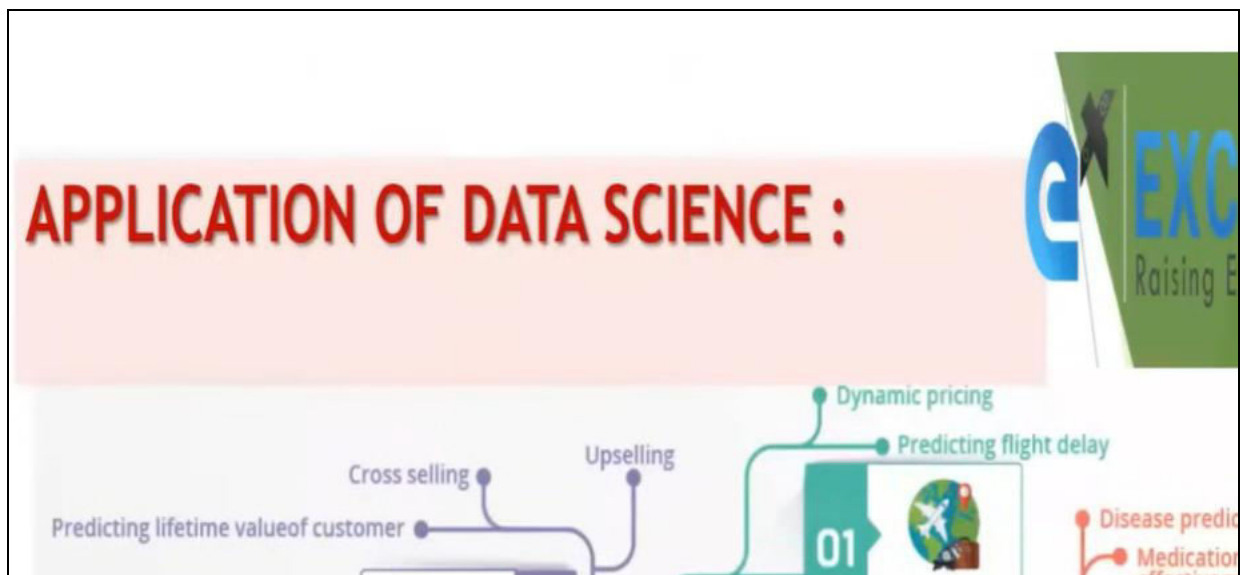

Description of Programme

The certification course on Chat GPT and Artificial Intelligence holds significant importance for various stakeholders, including individuals, organizations, and the broader industry. This program addresses the growing demand for skills in artificial intelligence and natural language processing, ensuring that individuals stay relevant and competitive in the rapidly evolving tech landscape. Organizations benefit from employees who are trained in Chat GPT

and AI, as they can contribute to the development of innovative and effective conversational interfaces, leading to improved customer interactions and user experiences. Hence the institute offered this latest certification through Excel R.

Outcome of Programme

The outcomes of a certification course on Chat GPT and Artificial Intelligence are multifaceted, empowering participants with a diverse set of skills and knowledge. Here are some outcomes: Students has achieved a high level of proficiency in utilizing Chat GPT, understanding its capabilities, limitations and applications across various domains. They have also developed advanced skills in Natural Language Processing, a critical aspect of creating intelligent conversational agents like chat bots. Students will be to design, develop and deploy effective chat bots, considering user experience, conversational flow and context awareness.

Syllabus for

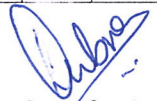

ChatGPT and AI

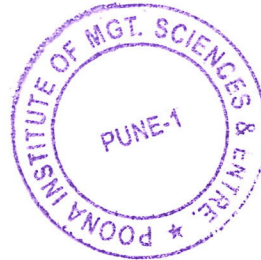

Weekday	Topic
Day 1:	AIML for business - Overview
Day 2:	Tools used for Data Science & AIML
Day 3:	Statistics Day 1
Day 4:	Statistics Day 2
Day 5:	Python Day 1 - Loops, Variables/Objects, Data Structures, Files
Day 6:	Python Day 2 - Advanced topics like visualization, databases, libraries & tools
Day 7:	Regression & Decision Trees
Day 8:	Clustering & Boosting
Day 9:	SVM & Apriori
Day 10:	Other algorithms
Day 11:	EDA & NLP
Day 12:	Neural networks by example in Python
Day 13:	Modern happenings in AIML & Data Science: Low code, Explainability, One shot learning and more
Day 14:	ChatGPT
Day 15:	ChatGPT

CERTIFICATE OF PARTICIPATION

This certificate is proudly presented to

Kartik Sandhu

For successful completion of 30 hours Live Training Program on
ChatGPT and Artificial Intelligence Program
Held from 08th May 2023 to 26th May 2023.

Issue Date: 30th May 2023

Certificate Code: 508006E/30052023

Ram Tavva
CEO, ExcelR Solutions

Academic Year 2022-23

Certification Program on “Celonis - Process Mining Fundamentals”

Name of the Resource Person and Association: Dr. Sheena Abraham, Certified Trainer for Celonis – Process Mining Fundamentals and Assistant Professor, Poona Institute of Management Sciences and Entrepreneurship

Dates: 22nd May 2023 to 7th June 2023

Duration: 30 hours

Mode of Certification: Offline

No. of Students Enrolled: 28

Mode of Evaluation: Continuous evaluation by conducting quizzes and software exercises in the LMS.

Objectives of Programme

- To understand what Process Mining is and the basics of it
- To help students use Process Mining in a realistic environment.
- To understand the functionalities and potentials of the Celonis Execution Management System.
- To gain knowledge about the theoretical foundations of Process Mining into practice.

Description of Programme

This certification track provides with insights into both, the theoretical and applied foundations around Process Mining. The track is structured into three milestones which consist of multiple courses. Those milestones are:

1. Review and Interpret Analyses

2. Build Analyses

3. Case Study: Pizzeria Mamma Mia

The track contains a good selection of academic reading, software training, and application examples of where the software is used in real life. The course provides below features

- Self-paced learning. Take courses at your own speed.
- Learn when it suits you with round-the-clock access.
- Get enabled fast with laser-focused, goal-based training.
- Accompanied by quizzes and software exercises to test your knowledge and skills in the software.
- After successfully completion of Course, Quizzes and Exercise, completion certificate will be mailed to student.

To conduct this certification successfully, Dr. Sheena Abraham, Certified Trainer for Celonis – Process Mining Fundamentals having 5+ years of experience in the field of Business Analytics and Data & Process Mining.

Outcome of Programme

Upon successful completion, students gained knowledge and skills to:

- Interpret process visualizations and leverage analyses to identify process inefficiencies.
- Conceptualize the process in terms of activities and cases.
- Save an analysis selection for future reference and share it with team; export visualizations and process data.
- Perform the basic tasks necessary to build Celonis analyses.
- Become familiar with Analysis Settings and Permissions.
- Publish analyses using best practices in version control.

NOTICE

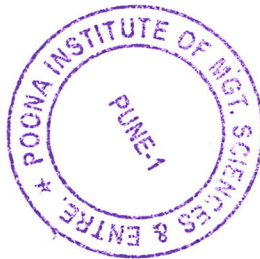

Date: 19th May 2023

All first year and second year students of MBA General, MBA IT and MBA HRD are hereby informed that PIMSE is offering Free Certification on 'Celonis – Process Mining Fundamentals'

After successful completion of the course, student will avail certificate from Celonis which has international recognition.

An introduction lecture about the certification and its execution is scheduled on 22nd May 2023 at 2 pm.

Dr. Porinita Banerjee
Director (Incharge)

Syllabus for
Certification Program on
“Celonis - Process Mining Fundamentals”

Syllabus

I. Process Mining Foundation (2 Hrs)

- Understand what Process Mining is and the basics of how it works.
- Summarize what an Event Log is and why we need it for Process Mining.
- Identify business use cases for Process Mining.

II. Review and Interpret Analyses (10 Hrs)

Navigate to an Analysis

- Locate your analyses in the respective Celonis service.

Use the Variant Explorer

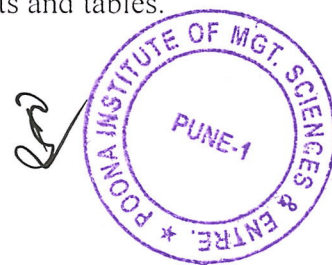

- Review and interpret individual variants.
- Review and interpret multiple variants while superimposing them.
- Switch between Case Frequency, Activity Frequency, and Throughput Time KPIs.
- Filter on cases using activities and connections.

Use the Process Explorer

- Interpret activity and connection case numbers in the Process Explorer.
- Review predecessor and successor activities (full-screen version only).
- Add and remove activities and connections in the Process Explorer.
- Filter on cases using activities and connections.
- Switch to other KPIs such as Throughput Time.

Use Charts and Tables, Review KPIs

- Describe what the concepts, dimension and KPI, represent.
- Interpret the visualization in charts and tables.
- Describe how filtering in one of the Explorers results in the tables and charts being updated and vice versa.
- Filter on cases in analysis using attributes in charts and tables.

- Interact with charts and tables—such as search for a specific value in the dimension column.

Use Selection Views

- Choose the right selection view, for your filtering need: Attribute selection, Activity selection, Process flow selection, Throughput time selection, Rework selection, Crop selection.
- Describe the relationship between filtering in analysis sheets and filtering via Selection Views.

Use the Case Explorer

- Describe the use cases for the Case Explorer.
- Interact with the Case Explorer to review the details of individual cases.

Use the Conformance Checker

- Interpret what the Conformance Overview displays.
- Review individual violations and their associated root causes.
- Review conformance for a selection of cases.
- Review the target process model the conformance checker is using.

Save and Share Analysis Selection, Export Data

- Save an analysis selection as a bookmark and share it.
- Export process visualizations and data.

Wrap-up: Review and Interpret Analyses

- List the five categories of execution gaps.
- Ideate how to extend your knowledge and skills in process improvement.

III. Build Analyses (16 Hrs)

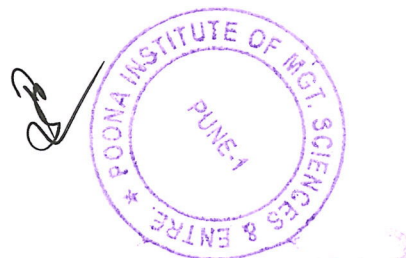

Create the Analysis Asset

- Create a package and an analysis asset in it.
- Describe best practices for organizing analysis assets.
- Explain the link between the data models, packages, and analysis assets.

Add the First Analysis Sheet and Publish

- Build your first analysis sheet.
- Publish your analysis and version it according to the recommended best practices.
- Configure General Settings (e.g. enable Selection Views and export of visualization and data) as well as user Permissions.

Configure Tables and Charts in Analysis

- Configure dimensions and KPIs for charts and tables (which is the same as for single KPIs).
- Describe the relationship between data tables and dimensions and KPIs.

Configure Single KPI, Selection & Design Compon.

- Configure single KPIs such as the Number.
- Configure Selection components such as Dropdowns and Date Pickers.
- Enhance the analysis with Design components such as Text with KPI, Lines, Images, and Logo

Configure Standard Process KPIs in the Visual Editor

- Select from Standard Process KPIs beyond the "Case Count."
- Configure "Total throughput time in days" to calculate the throughput time between specific activities in the process.
- Configure "Ratio of cases with a certain process flow" to calculate the ratio of cases that have gone through two or more specific activities.

Configure Custom KPIs in the Visual Editor

- Describe what the Activity Table (Event Log) contains.
- Select the right formula builder in the Visual Editor to build your custom KPI.
- Use the Ratio and Activity selection formula builders.
- Save a formula and retrieve it from the Library to reuse it in another component.
- Apply conditional formatting (color mapping) in an OLAP table.

Configure a Conformance Checker Sheet

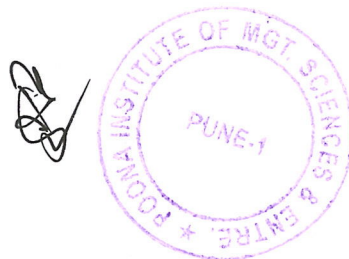

- Add a Conformance checker sheet by mining the target process model from the Variant Explorer.
- List your options for specifying the target process model for Conformance checker sheets.
- Add KPIs to Conformance checker sheets.

Create Background Filters in Analyses

- Apply background filters to individual components or sheets, and the entire analysis.

Create Dynamic Analyses

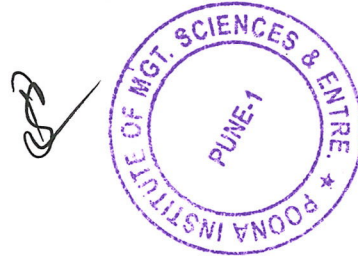

- Use variables to create dynamic titles and components that update based on the user's selection from a dropdown menu.
- Create benchmarking sheets to compare how two entities are performing.

IV Case Study (2 Hrs)

Case Study: Pizzeria Mamma Mia

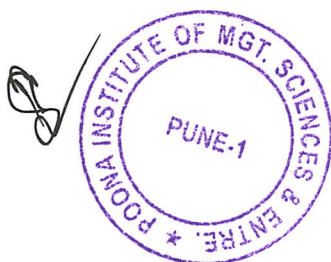

- Use Process Mining in a realistic environment.
- Understand the functionalities and potentials of the Celonis Execution Management System.

Academic Year 2022-23

Certification Program on “AWS - Cloud Foundation”

Name of the Resource Person and Association: Mr. Mohammadali Shaikh, Certified Trainer for AWS Academy and Assistant Professor, AKI Poona Institute of Management Sciences and Entrepreneurship

Dates: 5th June 2023 to 21st June 2023

Duration: 20 hours lecture + 10 hours Practical

Mode of Certification: Offline

No. of Students Enrolled: 39

Mode of Evaluation: Continuous evaluation by AWS Knowledge Check Quiz and Module wise practical Lab in the LMS.

Objectives of Programme

- To gain knowledge about the theoretical concept of the AWS Cloud Technology
- To help student identify the global infrastructure components of AWS
- To describe the security and compliance measures of the AWS Cloud Technology
- To understand the various applications using AWS Cloud Technology
- To help student learn virtualisation platform about the Cloud Technology which will help student to have added advantage over the others

Description of Programme

AWS Academy Cloud Foundations is intended for students who seek an overall understanding of cloud computing concepts, independent of specific technical roles. It provides a detailed overview of cloud concepts, AWS core services, security, architecture,

pricing, and support. Preparation for Specialized Roles: While it is a foundational certification, it can serve as a stepping stone for career. This certification will provide a solid foundation and demonstrates a commitment to gaining cloud expertise.

Outcome of Programme

The AWS Certified Cloud Foundation is an entry-level certification that validates an student's understanding of the AWS Cloud. Successful completion of the AWS Certified Cloud Foundation certification program results in several outcomes like students acquired knowledge about the various AWS services, their functionalities and how they can be used to build and deploy scalable and secure cloud solutions. They also learnt the basic principles of cloud security and learnt how to implement best practices to secure AWS resources. They learnt the fundamentals of AWS Identity and Access Management, including user and group management, permissions, and authentication.

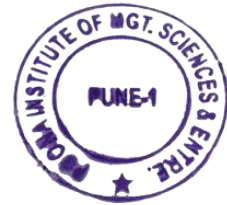

Introductory session conducted on 'AWS - Cloud Foundation'

NOTICE

Date: 1st June 2023

All first year and second year students of MBA General, MBA IT and MBA HRD are hereby informed that PIMSE is offering Free Certification on **“AWS Cloud Foundation”**.

After successful completion of the course, student will avail certificate from AWS Academy which has international recognition.

An introduction lecture about the certification and its execution is scheduled on 3rd June 2023 at 12.30 pm.

Dr. Porinita Banerjee.
Director (Incharge)

Course Outline

AWS Academy Cloud Foundations

CONFIDENTIAL – DO NOT DISTRIBUTE

Course version

This course outline applies to version 2.0 of *AWS Academy Cloud Foundations* in English. Details of changes from version 1.0 are available in the Instructor Guide.

Description

AWS Academy Cloud Foundations is intended for students who seek an overall understanding of cloud computing concepts, independent of specific technical roles. It provides a detailed overview of cloud concepts, AWS core services, security, architecture, pricing, and support.

Curriculum objectives

Upon completion of this course, students will be able to do the following:

- Define the AWS Cloud
- Explain the AWS pricing philosophy
- Identify the global infrastructure components of AWS
- Describe the security and compliance measures of the AWS Cloud, including AWS Identity and Access Management (IAM)
- Create a virtual private cloud (VPC) by using Amazon Virtual Private Cloud (Amazon VPC)
- Demonstrate when to use Amazon Elastic Compute Cloud (Amazon EC2), AWS Lambda, and AWS Elastic Beanstalk
- Differentiate between Amazon Simple Storage Service (Amazon S3), Amazon Elastic Block Store (Amazon EBS), Amazon Elastic File System (Amazon EFS), and Amazon Simple Storage Service Glacier (Amazon S3 Glacier)
- Demonstrate when to use AWS database services, including Amazon Relational Database Service (Amazon RDS), Amazon DynamoDB, Amazon Redshift, and Amazon Aurora
- Explain the architectural principles of the AWS Cloud
- Explore key concepts related to Elastic Load Balancing, Amazon CloudWatch, and Amazon EC2 Auto Scaling

Duration

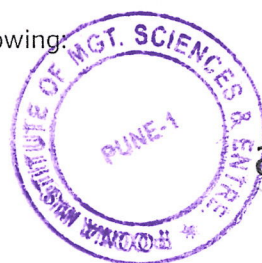

Approximately 20 hours, when delivered synchronously by an educator. Detailed timings are provided below. Actual delivery times will vary from class to class and depending on the delivery format. AWS Academy Cloud Foundations must be delivered over a period of at least two weeks.

Intended audience

This introductory-level course is intended for students attending AWS Academy member institutions.

Student prerequisites

To ensure success in this course, students should have the following:

aws academy

Course Outline

AWS Academy Cloud Foundations

CONFIDENTIAL – DO NOT DISTRIBUTE

- AWS services and service categories
- Activity: AWS Management Console Clickthrough
- Activity: Sample Exam Question
- Knowledge check

Module 4: Cloud Security

- AWS shared responsibility model
- Activity: AWS Shared Responsibility Model
- AWS IAM
- Demo: AWS IAM Console
- Securing a new AWS account
- Lab: Introduction to AWS IAM
- Securing accounts
- Securing data
- Working to ensure compliance
- Activity: Sample Exam Question
- Knowledge check

Module 5: Networking and Content Delivery

- Networking basics
- Amazon VPC
- VPC networking
- Activity: Label This diagram
- Demo: Amazon VPC Console
- VPC security
- Activity: Design a VPC
- Lab: Build a VPC and Launch a Web Server
- Route 53
- CloudFront
- Activity: Sample Exam Question
- Knowledge check

Module 6: Compute

- Compute services overview
- Amazon EC2 part 1
- Amazon EC2 part 2
- Amazon EC2 part 3
- Demo: Amazon EC2
- Lab: Introduction to Amazon EC2
- Activity: Amazon EC2 Versus Managed Services
- Demo: Amazon EC2 Part Console
- Amazon EC2 cost optimization
- Container services
- Introduction to AWS Lambda
- Activity: AWS Lambda

Course Outline

AWS Academy Cloud Foundations

CONFIDENTIAL – DO NOT DISTRIBUTE

Module Title	Lecture (Minutes)	Activity/Lab/Demo (Minutes)	Knowledge Check (Minutes)	Total Module (Minutes)
Module 7: Storage	45	75	10	130
Module 8: Databases	60	60	10	130
Module 9: Cloud Architecture	40	65	10	115
Module 10: Automatic Scaling and Monitoring	35	45	10	90
Total Course Time	515	585	100	1,200

Module sections

This section lists the module sections in this course.

Course Introduction

- Course objectives and overview
- AWS Certification exam information
- AWS documentation

Module 1: Cloud Concepts Overview

- Introduction to cloud computing
- Advantages of the cloud
- Introduction to AWS
- Moving to the AWS Cloud
- Activity: Sample Exam Question
- Knowledge check

Module 2: Cloud Economics and Billing

- Fundamentals of pricing
- Total cost of ownership
- Activity: Simple Monthly Calculator
- Delaware North case study
- AWS Organizations
- AWS billing and cost management
- Billing dashboards
- Technical support models
- Activity: Support Plan Scavenger Hunt
- Activity: Sample Exam Question
- Knowledge check

Module 3: AWS Global Infrastructure Overview

- AWS global infrastructure
- Demo: AWS global infrastructure

Course Outline

AWS Academy Cloud Foundations

CONFIDENTIAL – DO NOT DISTRIBUTE

- General IT technical knowledge
- General IT business knowledge

Delivery methods

This course can be delivered in person with synchronous lectures or with digital training models that students can complete independently.

Educator prerequisites

This course does not have any prerequisites for educators. However, prior to facilitating this course, educators are recommended to complete this course, complete the AWS Academy Cloud Foundations course, and pass the AWS Certified Cloud Practitioner exam.

Learning resources

- Lecture materials
- Online multiple-choice knowledge checks
- Lab exercises
- Digital training (optional)
- Video introductions
- Video demos
- Example solutions

Course timing

This table provides the suggested durations for all course activities. Note that the total classroom time for all the modules in this course is 1,200 (20 hours). Items that are not applicable are marked NA.

Module Title	Lecture (Minutes)	Activity/Lab/Demo (Minutes)	Knowledge Check (Minutes)	Total Module (Minutes)
Course Introduction	35	NA	NA	35
Module 1: Cloud Concepts Overview	45	5	10	60
Module 2: Cloud Economics and Billing	45	45	10	100
Module 3: AWS Global Infrastructure Overview	25	35	10	70
Module 4: Cloud Security	45	60	10	115
Module 5: Networking and Content Delivery	60	60	10	130
Module 6: Compute	80	135	10	225

Course Outline

AWS Academy Cloud Foundations

CONFIDENTIAL – DO NOT DISTRIBUTE

- Introduction to AWS Elastic Beanstalk
- Activity: AWS Elastic Beanstalk
- Activity: Sample Exam Question
- Knowledge check

Module 7: Storage

- AWS EBS
- Demo: Amazon Elastic Block Store Console
- Lab: Working with EBS
- AWS S3
- Demo: AWS S3 Console
- AWS EFS
- Demo: AWS EFS Console
- AWS S3 Glacier
- Demo: AWS S3 Glacier Console
- Activity: Storage Technology Selection
- Activity: Sample Exam Question
- Knowledge check

Module 8: Databases

- Amazon RDS
- Demo: Amazon RDS Console
- Lab: Build a Database Server
- Amazon DynamoDB
- Demo: Amazon DynamoDB
- Amazon Redshift
- Amazon Aurora
- Activity: Database case study
- Activity: Sample Exam Question
- Knowledge check

Module 9: Cloud Architecture

- AWS Well-Architected Framework design principles
- Activity: AWS Well-Architected Framework Design Principles
- Operational excellence
- Security
- Reliability
- Performance efficiency
- Cost optimization
- Reliability & high availability
- AWS Trusted Advisor
- Activity: Interpret AWS Trusted Advisor Recommendations
- Activity: Sample Exam Question
- Knowledge check

Course Outline

AWS Academy Cloud Foundations

CONFIDENTIAL – DO NOT DISTRIBUTE

Module 10: Automatic Scaling and Monitoring

- Elastic Load Balancing
- Activity: Elastic Load Balancing
- Amazon CloudWatch
- Activity: Amazon CloudWatch
- Amazon EC2 auto scaling
- Lab: Scale & Load Balance your Architecture
- Activity: Sample Exam Question
- Knowledge check
